Located in the heart of the Permian Basin, Odessa is at the industrial and commercial crossroads of West Texas. It's halfway between Dallas/Fort Worth and El Paso. Odessa and our sister city Midland, located 18 miles due east, make up the hub of the Permian. The Permian produces a total of one-fourth of the entire nation's natural gas.

Average Elevation 2,851 feet above sea level

City Area 15.04 square miles

County Area 822 square miles
